Vision

At Tecnigold, “Building Trust through Beauty” is more than just a slogan - it is our mission. **Trust means fostering strong relationships with our people, our stakeholders, and the environment. Now and for the future.** It involves ensuring that every step we take aligns with our core values of integrity, excellence, and responsibility. Each gold chain crafted in Vicenza is a testament to these commitments.

We take pride in our rich heritage, while also looking to the future with a **focus on responsibility**. We have enhanced our certification processes, ensuring that our materials are ethically sourced and our production methods are sustainable.

Our dedication extends beyond our products to the entire community: our employees, our partners, and all stakeholders. **We believe in creating a positive impact for everyone associated with Tecnigold**, akin to a precious and positive sequence. This means fostering a culture where trust, respect, and collaboration flourish. Our people are at the core of what we do, and we are deeply committed to their well-being and professional growth.

Our stakeholders know that choosing Tecnigold means selecting quality, authenticity, and sustainability. We build trust every day, not only through the beauty of our gold chains but also through our actions and values. We are proud to lead by example, setting a benchmark for responsible jewellery production.

Looking ahead, we will continue to push the boundaries of innovation and excellence. We remain committed to creating jewellery that is not only beautiful but also ethically crafted.
Producing high-quality, artisanal gold chains, requires more than just skilled craftsmanship – it demands **visionary ideas, pure intentions, and a clear vision**.

“Sequences of Beauty” encapsulates our journey of innovation, where each step builds upon the last. Our creative designs and advanced technology evolve in perfect harmony, allowing us to transform raw gold into exquisite chains. This continuous sequence seamlessly blends tradition with modernity to create something truly exceptional.

Thank you for your trust and support.

Paolo Piotto
Director

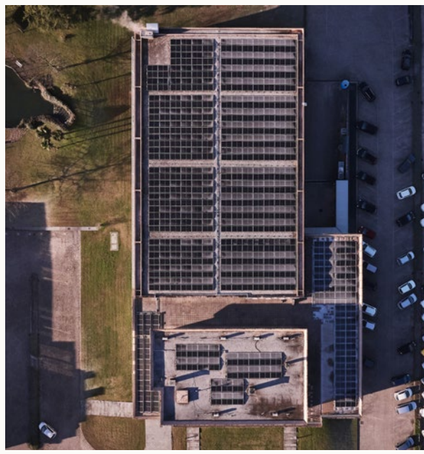
At Tecnigold, skilled artisans shape each gold chain with precision and care, ensuring unmatched quality and timeless beauty

Updates

• For a Greener Gold Production

Investing in sustainable technology, we aim to make our gold production greener. Our focus is on eco-friendly innovation.

- **Installation of solar panels** (300 KW in 2023 and other 100 KW in 2025-26)
- Implementation of cutting-edge **water reclamation system**
- Transition from traditional boilers to **heat pumps**
- Replacement of the main annealing furnace
- Installation of a green wall
- Revamping of production lighting, with cutting energy consumption by 8%
- By 2025, we plan to install **a nitrogen self-production** plant to reduce our reliance on road transport and lower our carbon footprint



• For a Better Community

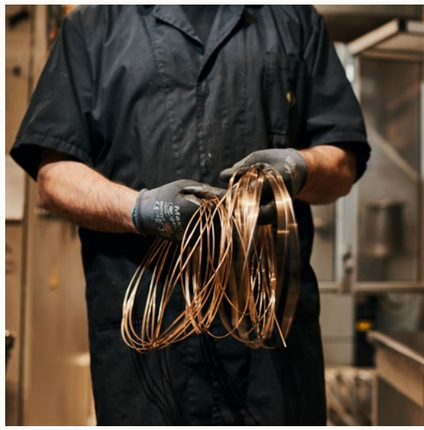
At Tecnigold, we strive to enhance our employees' work-life balance and contribute positively to our local community, building a better future for all.

- Supporting the local economy through **the Unipol Welfare** programme, initially dedicated to our employees
- Promoting a healthy work-life balance
- Fostering collaboration with **local schools and educational initiatives**, encouraging intergenerational exchange and sharing our craftsmanship

• For a Sustainable Market

Concerning certifications, we uphold the highest standards across our supply chain, ensuring trust and quality as a qualified partner.

- Conducted client satisfaction surveys revealing 98% of customers are fully satisfied, identifying areas for further improvement to enhance customer experience
- Achieving **SMETA Four Pillars** certification, supervised by SEDEX
- Voluntary complying with the **231 Model** to safeguard ethical business conduct
- Publishing a **Company Sustainability Report** in line with CSRD directives
- Commenced the journey towards **RJC certification**, with the goal of achieving it by 2025



Green philosophy

Tecnigold is committed to crafting gold chains that honour both tradition and the environment.
Our production process prioritizes sustainability, using ethically sourced materials and eco-friendly methods. We strive to reduce our environmental footprint, ensuring that our jewellery embodies both beauty and responsibility.

-49% electricity consumption

We have reduced electricity consumption by 48.54% from 2022 to 2024 and aim for an additional 8% reduction by 2025 to further optimise energy use.

-53% water consumption

From 2022 to 2023, we achieved a 53% reduction in water use, thanks to new systems that recycle groundwater and reduce surfactant use. Our goal is an additional 30% reduction by 2025.

-50% gas consumption

From 2022 to 2023, we reduced technical gas usage, particularly nitrogen, by more than 50%. By 2025, we aim to install a nitrogen self-production system to decrease reliance on road transport.

Vicenza's rich artistic heritage inspires Tecnigold's gold chains, blending tradition and innovation to create jewellery of extraordinary beauty.

ROPD___10102

CURB: LA CATENA! / Available in weights ranging from 5.5 to 80 grams and karats from 9 to 22 kt, this chain comes in yellow, red, and white gold, with two-tone red and white or yellow and white versions also available. A true MUST-HAVE.

GALD3_112640

OPEN FIGARO / Available in weights ranging from 1.5 to 30 grams and karats from 9 to 22 kt, this chain is offered in yellow, red, and white gold with two-tone red and white or yellow and white versions also available. An essential choice for those seeking lightness.

GKKD___11756

LIGHT CURB / Available in weights ranging from 1.5 to 12 grams and karats from 9 to 22 kt, in yellow, red, and white gold. The top-performing Groumetta in our collection.

SGQD___99999

SPIGA / The pendant chain par excellence, available in weights ranging from 1.2 to 12 grams and karats from 9 to 22 kt, in yellow, red, and white gold. Two-tone versions in red and white, as well as yellow and white, are also available.

R3V____99999

ROLÒ DIAMOND / Another perfect light and durable pendant chain, available in weights ranging from 0.85 to 4.5 grams and karats from 9 to 22 kt, in yellow, red, and white gold. Two-tone versions in red and white, as well as yellow and white, are also available.

F7F____99999

SPECCHIO / A light and durable pendant chain with a brilliant shine, available in weights ranging from 0.75 to 4.5 grams and karats from 9 to 22 kt, in yellow, red, and white gold.

CPLD___16621

CATENA PALLINE DIAMANTATE / The DIAMOND BEADS CHAIN is available with various diamond finishes. Weights range from 5 to 28 grams, and karats from 9 to 22 kt, in yellow, red, and white gold. Two-tone versions in red and white, as well as yellow and white, are also available.

ET2____11756

HERRINGBONE / Available in both polished and various diamond finishes. Weights range from 2 to 15 grams, with karats from 9 to 22 kt in yellow, red, and white gold. Two-tone versions in red and white, as well as yellow and white, are also available.

VAL____20196

VALENTINO / Available in both polished and various diamond finishes. Weights range from 1.4 to 15 grams, with karats from 9 to 22 kt, in yellow, red, and white gold. Two-tone versions in red and white, as well as yellow and white, are available, along with options in two or three natural alloy colours.

LPD____15149

LUMACHINA / Available in both polished and an extensive range of diamond finishes. Weights range from 3 to 36 grams, with karats from 9 to 22 kt in yellow, red, and white gold. Two-tone versions in red and white, as well as yellow and white, are also available.

F7K2F0899999

BISMARK MIRROR TWISTED / With a weight of less than 3 grams, this chain boasts one of the best weight-to-width ratios in our entire collection. Considering current metal prices, it stands out as one of the best options available. Available in karats ranging from 9 to 22 kt, in yellow, red, and white gold.
